

**You can become  
a statistic...**

Blacks/African Americans account for almost half of the estimated 1.1 million people living with the HIV infection in the United States (Centers for Disease Control and Prevention)

By the end of 2006, African Americans represented 81% of people living with AIDS in Maryland.

In 2006, African Americans accounted for 59% of all new HIV cases in Montgomery County.

In 2006, 65% of those living with AIDS in Montgomery County were African Americans.

Information taken from the 2006 CDC HIV/AIDS Surveillance Report, MDHMH, Vital Statistics Administration and MD AIDS Administration.

**To make a difference, join us in our  
effort to reclaim the African American  
community in Montgomery County  
from the HIV virus.**

The African American Health Program is committed to eliminating health disparities and improving the number and quality of years of life for African Americans.

The African American Health Program is funded by the Montgomery County Department of Health and Human Services and administered by BETAH Associates, Inc.
